meet.google.com/idv-yyqa-xwf

Class : III BCA(A)
1ST HR

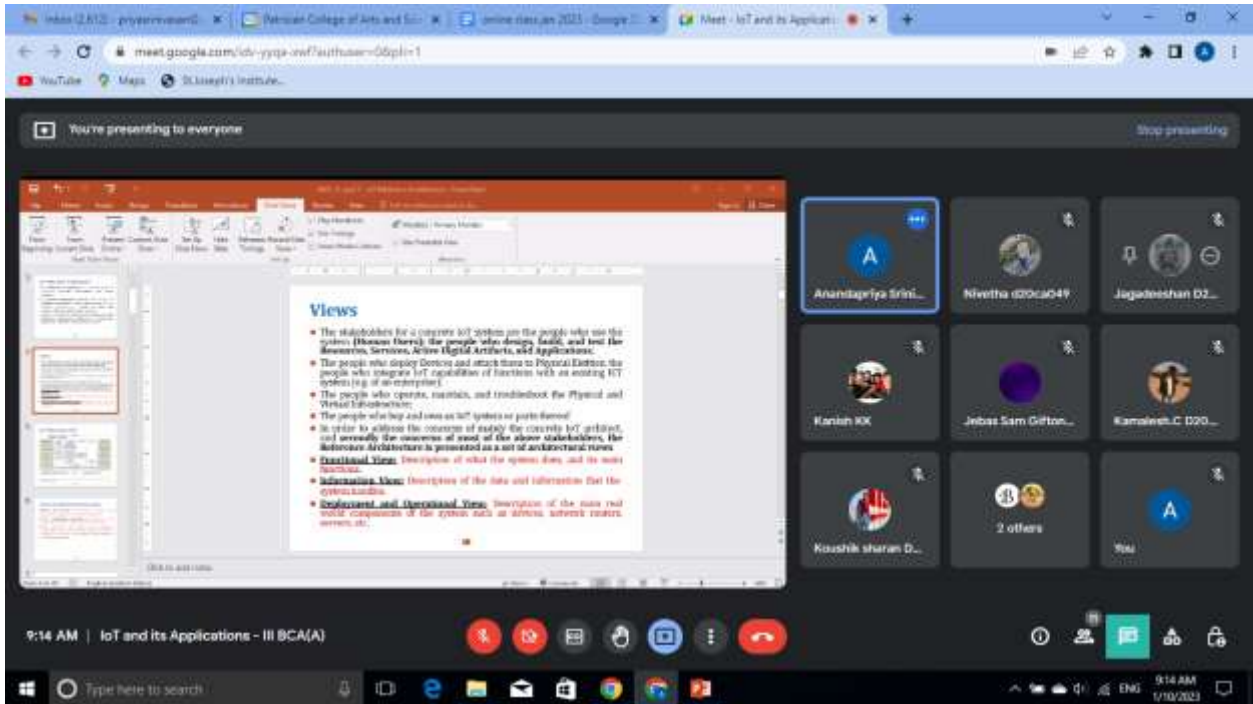

The screenshot shows a Google Meet window. The main content is a presentation slide titled "IoT Functional View" which contains a complex flowchart or diagram. The interface includes a "You're presenting to everyone" notification, a "Stop presenting" button, and an "In-call messages" panel on the right. The messages panel shows a list of messages from "A. Bhaskarawat 020CA013" with timestamps and content like "Good morning team". The bottom of the screen shows the Windows taskbar with the time 9:14 AM and date 1/10/2023.

The screenshot shows a PowerPoint slide titled "Views" from a presentation on IoT Reference Architecture. The slide contains a bulleted list of roles and architectural views:

- The stakeholders for a concrete IoT system are the people who use the system (**Human Users**); the people who **design, build, and test the Resources, Services, Active Digital Artifacts, and Applications**;
- The people who deploy Devices and attach them to Physical Entities; the people who integrate IoT capabilities of functions with an existing ICT system (e.g. of an enterprise);
- The people who operate, maintain, and troubleshoot the Physical and Virtual Infrastructure;
- The people who buy and own an IoT system or parts thereof
- In order to address the concerns of mainly the concrete IoT architect, and secondly the concerns of most of the above stakeholders, the **Reference Architecture is presented as a set of architectural views**.
- **Functional View**: Description of what the system does, and its main functions.
- **Information View**: Description of the data and information that the system handles.
- **Deployment and Operational View**: Description of the main real world components of the system such as devices, network routers, servers, etc.

The slide also includes a "Click to add notes" area at the bottom. The background of the slide shows a blurred view of the "IoT Functional View" diagram from the previous screenshot. The bottom of the screen shows the Windows taskbar with the time 9:14 AM and date 1/10/2023.

The screenshot shows a Google Meet window with a presentation slide. The slide content is as follows:

DEPARTMENT OF COMPUTER APPLICATIONS
SEMESTER : VI
IOT AND ITS APPLICATIONS

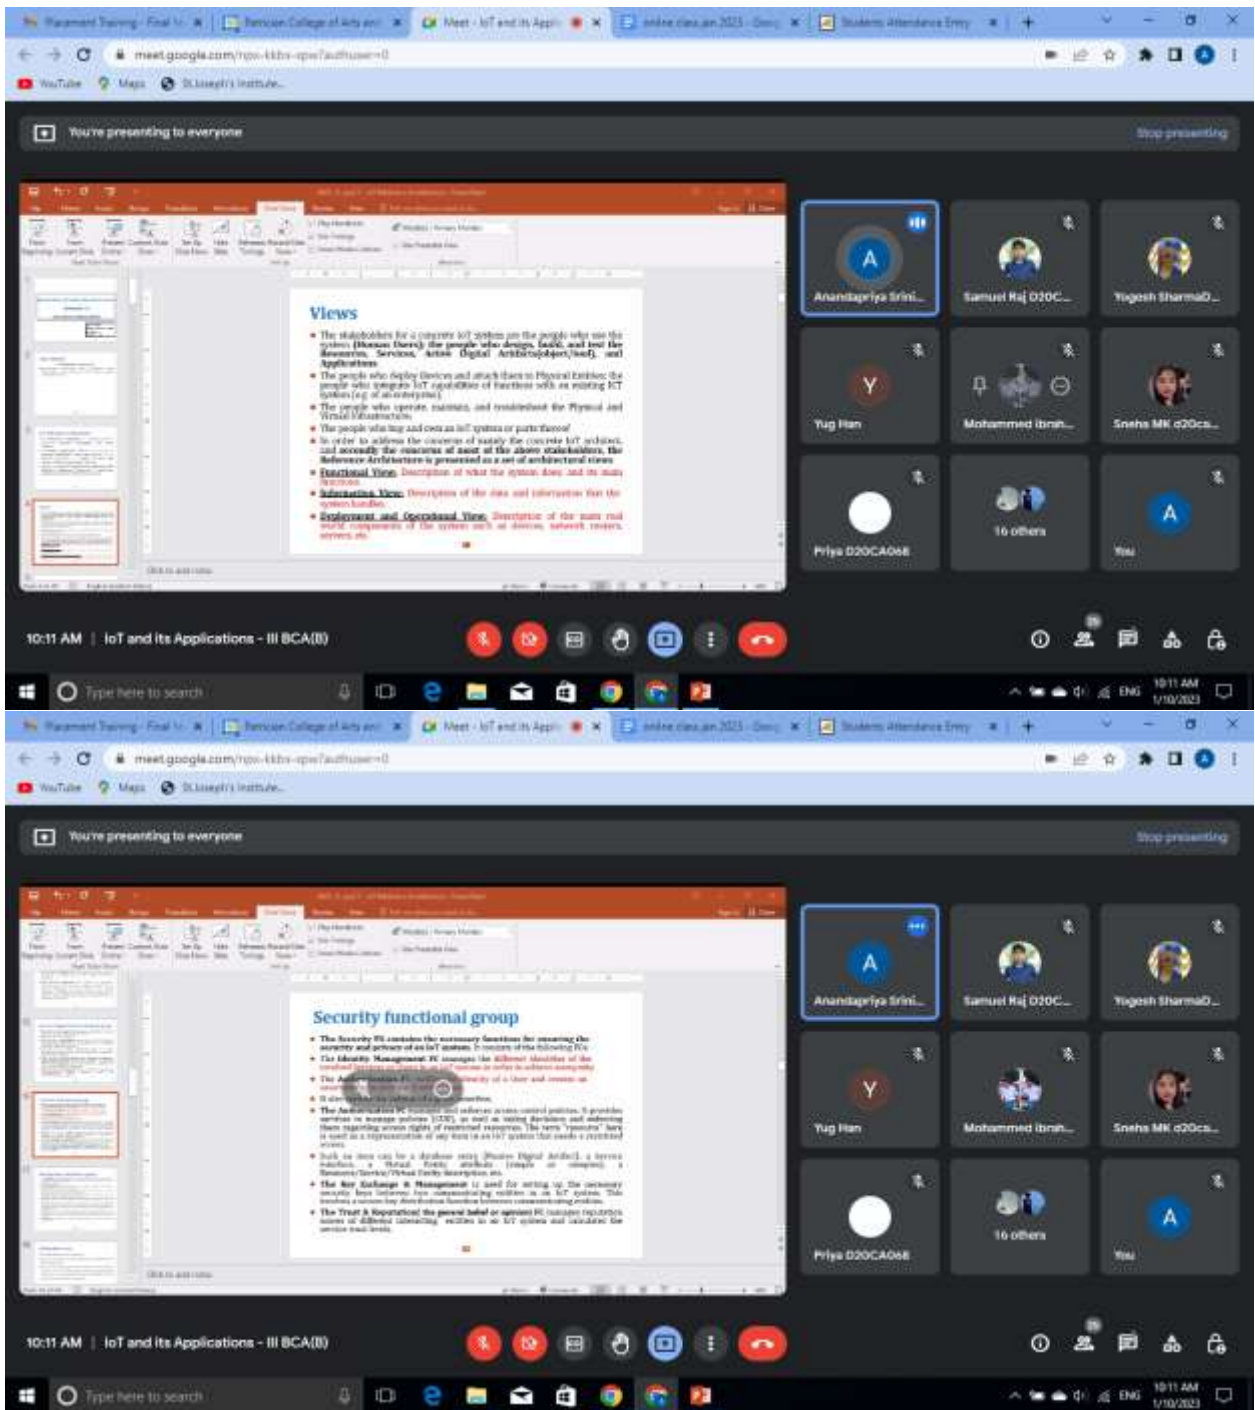

Class : III BCA
Faculty : 9th January 2023
Day Order : 1
Period : 1st / 2nd

The interface includes a 'You're presenting to everyone' notification, a 'Stop presenting' button, and a sidebar with two participants: Anandapriya Srinivasan and 'You'. The bottom status bar shows the time as 9:27 AM and the meeting title 'IoT and its Applications - III BCA(B)'. The Windows taskbar is visible at the bottom.

The screenshot shows a Google Meet window with a presentation slide. The slide content is as follows:

Unit 3 Review
IoT Reference Architecture
• Introduction, Functional View, Information View, Deployment and Operational View, Other Relevant architectural views.

The interface includes a 'You're presenting to everyone' notification, a 'Stop presenting' button, and a sidebar with two participants: Anandapriya Srinivasan and 'You'. The bottom status bar shows the time as 9:28 AM and the meeting title 'IoT and its Applications - III BCA(B)'. The Windows taskbar is visible at the bottom.
