Objective:

To inculcate moral values among the student community.

Report:

The Patrician College of Arts and Science Conducts Value Education Classes for the students during every first week of the month. For every month, different themes can be incorporated to motivate and to provide holistic education to the students. The theme for February month 2023 is “To Seek, To Strive, To Find” which is the motto of our college. Our students actively participated in the event. Each teacher incorporates different mythologies to

reach out the students at the maximum. At the end of the class, feedback from the students were collected and help out the students based on their need.

Reference:

Key points:

- Love God and live together in peace and charity.
- Do everything in a spirit of holy love and you will not find your hands empty at journey's end.
- It is not, my dear children, God's consolations but God himself you should seek.
- What you are those who come after you will be: the fountain should itself be pure in order to have the stream pure.
- From every seed sown and cultivated by pure love we shall be sure to reap a harvest of endless glory.
- Never entertain yourself or others in speaking of another's faults or failings. You should be no less careful to draw a veil over these than if they actually belonged to yourself.
- For you holiness will not consist in doing great actions, but in doing your least actions with great purity of intention and a genuine desire to please God.
- By performing the ordinary duties of your day well you will perfect yourself, and your day will be full of merit and good works.
