

ONLINE PEDAGOGY

The Academic year 2020-2021 was a challenging year for Teachers and Students. Uncertainty prevailed in the education stream trying to figure out the way of effective teaching to the student community amidst the pandemic. This was considered to be an effective medium of teaching which one wasn't aware of. The online platform paved way to engage the students in the visual medium of education.

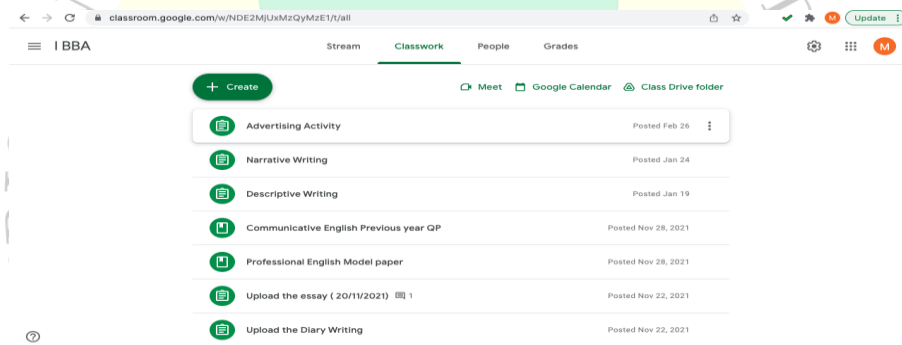

There were many online platforms to engage the students effectively like Google Meet, Zoom, Webex. Programs like Bridge Course, Webinars, Inter Collegiate Culturals, Inter Departments, International Days, Festivals were celebrated via Online mode effectively apart from the regular major classes. Meet Attendance was an additional feature which helped to keep track of the students availability online during the hour.

The Programs were organized hassle free with the aid of Google forms for registering the program and receiving valuable feedback from the students. Moreover in the academics it proved to be very useful in evaluating and grading the answer sheet of the students by the use of Google Forms and Google Classroom. Uploading relevant material for the students in the Google classroom and Google sites made it easily accessible everywhere. In addition to this Virtual Entrepreneurship programs, Industrial Visits were organized in the online platform.

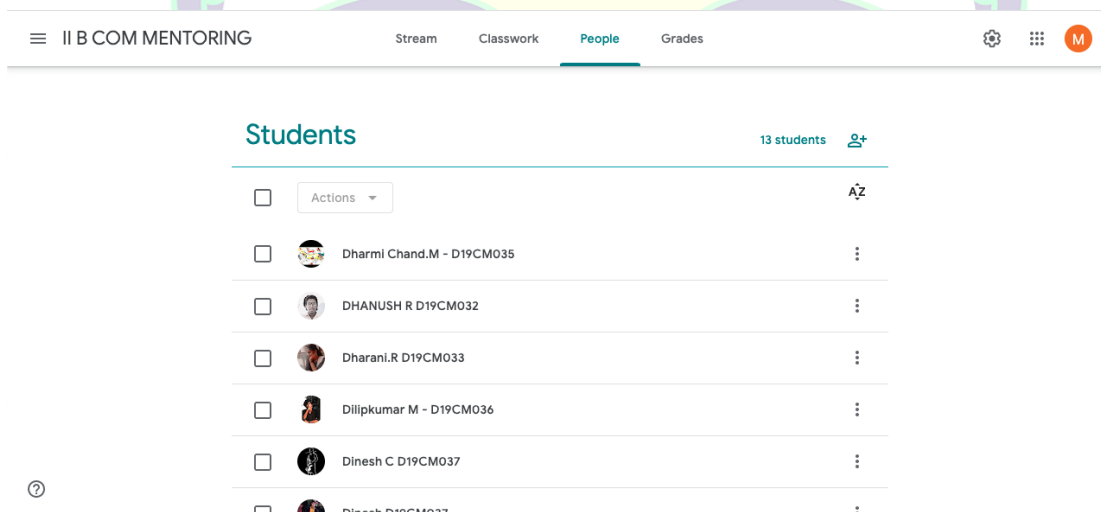

Mentoring and Counseling was also made available for the students during the pandemic. Periodic sessions were conducted by the Academic Mentors and the Personal Mentors. The mentees joined the concerned Mentors' Google Classroom. Parent Teachers' meet was organized effectively through Google Meet and the queries were received and addressed.
