## About the College

Patrician College of Arts and Science, established in 2001, is a Christian minority co-educational self-financing institution affiliated to the University of Madras. It was instituted by the Brothers of St. Patrick, a congregation established by Bishop Daniel Delany on 2nd February 1808, in Ireland. With their exceptional skill in leadership, governance and the strong hand of the Almighty, the congregation has established schools & colleges throughout the world.

The College offers 11 Undergraduate, 4 Post graduate & 2 Research programmes in Shift-1; & 7 Undergraduate & 2 Post graduate programmes in Shift-2.

## About the Department

The Department of Accounting & Finance (shift-1) was established in the year 2017. The program specializes in Accounting and the Financial streams. The Department has proficient and well experienced staff members. Quality education with value added skills and academic knowledge is imparted to students to meet the challenges of the competitive environment. Department conducts motivational talks, seminars and guest lectures on regular basis to enhance the students competency and the faculty facilitates the students to enroll in professional courses like CA & CMA for their career prospects.

## About the Student Development Program

"The Best way to predict your future is to credit it".

The success of any individual depends on the choices they make in life. A careful selection of the field of higher studies and career is the key for a successful future. This SDP is designed to provide a clear knowledge & orientation about the opportunities in Higher Education & Career Planning.

The question & answer (Q&A) Session was conducted after the second session which allowed attendees to ask questions during the webinar, and for both the Resource persons to answer the students' queries.

### Feedback

The link for feedback form was <https://forms.gle/FfCzwtVBFyjpjrv57>. Many responses from the feedback indicated that students felt there was a need to do the professional courses along with their degree courses especially during this pandemic time. The students understood the advantages of doing a professional degree which can open the door for more job opportunities thereby they get a good pay, and they can follow their passion. More students demanded this type of webinar sessions in future to have confidence and to motivate themselves to work hard to achieve their dreams.

### Outcome

The students were able to understand the importance of professional courses rather than having a degree. Students who were interested in starting their own business got motivated and learned the opportunities in front of them to start their dream business. Students have taken initiatives to design their own business ideas to make into a reality.

**Lead Trainer at Institute of Skills**

Adjunct Faculty at CMS Business School,  
Jain University, Bangalore

**Date :** 26.05.2021

**Time :** 3:00 PM to 4:00 PM

The Resource person had emphasized on the continuous growth and all-round development of students through training and several other activities to make the students placeable. This session offered training inputs and helped them to learn and acquire new skills and competencies through various activities such as mock interviews, group discussions, aptitude tests, expert lectures etc.

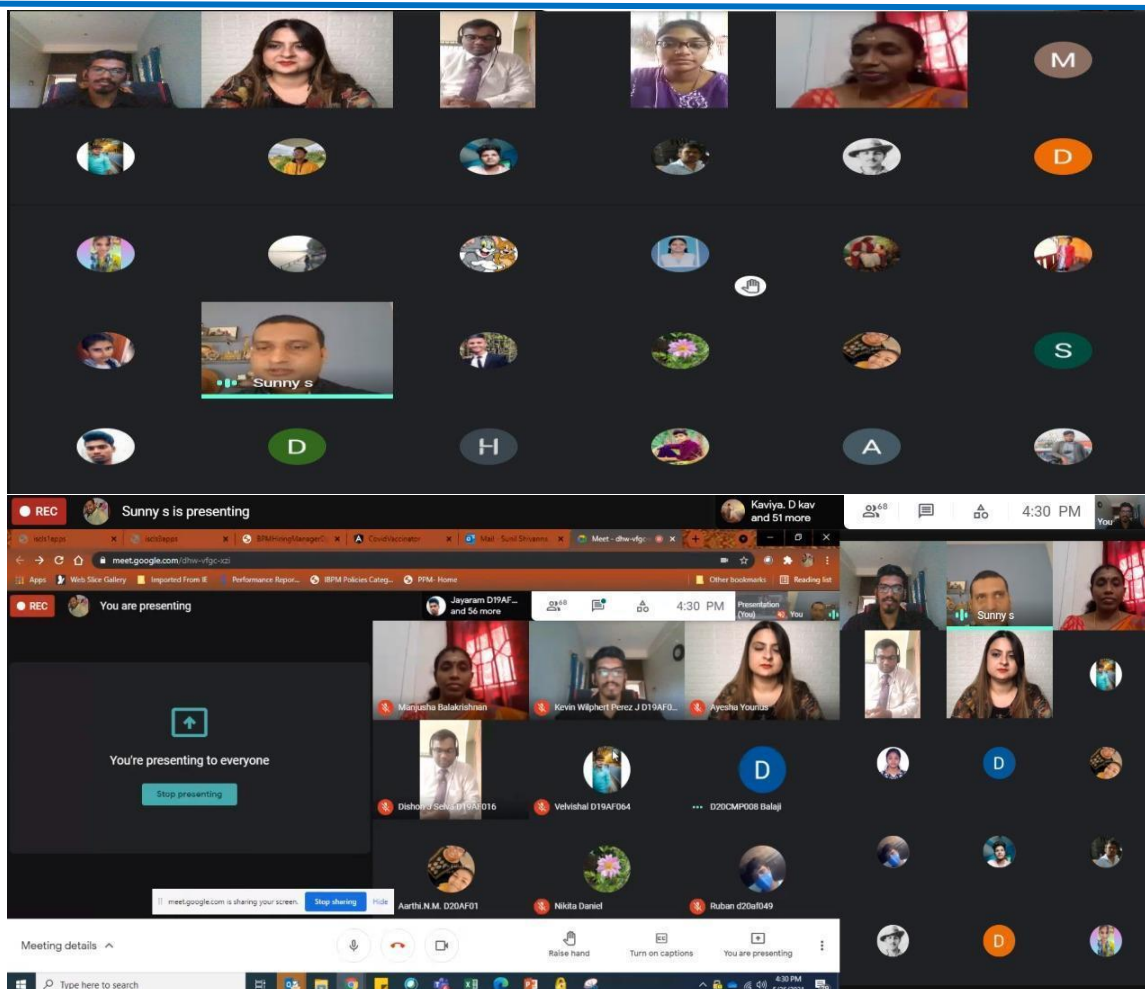

### **Session 2**

**Resource Person : Mr. Sunil Shivanna**

Manager  
Talent Acquisition  
HR- Infosys  
Mysore

The Resource person used important tools of interaction like Mock Interviews, Group Discussion, Online Logical Reasoning Tests among students to learn from the practical experiences of interview sessions. The aim of these practical session is to help students in grooming their overall personality and bringing out the hidden talents, creativity, and flair of the students. The question & answer (Q&A) Session was conducted after two sessions which allowed attendees to ask questions during the webinar, and for both the Resource persons to answer the students' queries.

### Feedback

The link for feedback form was <https://forms.gle/3oPEMNMDMqnaDJMP18>. Many responses from the feedback revealed that students were highly active and enthusiastic for the practical sessions. It was a great platform for the hands-on training to groom the students for placement. These types of practical sessions helped the students to know their performance level in a Mock Interview. Students showed their interest in conducting similar kind of workshops in future.

### Outcome

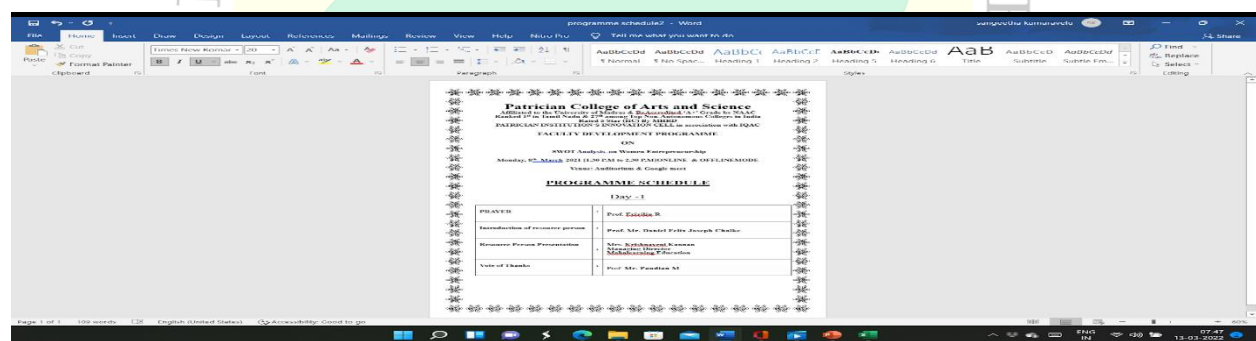

The students understood the importance of Presentation skill which was a necessary part of the interviews now a days. It helped students in preparing for taking up challenges in the corporate world. The National Student Development Program conducted by the Department of Accounting & Finance (shift I), Patrician College of Arts and Science considers that the colleges and universities must challenge their students; they must purposefully put them out of their comfort zone so that they wrestle with new ideas or experience.

## PATRICIAN INSTITUTION'S INNOVATION CELL in association with IQAC FACULTY DEVELOPMENT PROGRAMME ON SWOT Analysis on Women Entrepreneurship (day -1)

**Monday, 8<sup>th</sup> March 2021 [1.30 P.M to 2.30 P.M]**

**ONLINE & OFFLINEMODE**

**Venue: Auditorium & Google meet**

### **ABOUT THE PROGRAMME**

SWOT analysis (strengths, weaknesses, opportunities, and threats analysis) is a framework for identifying and analyzing the internal and external factors that can have an impact on the viability of a project, product, place or person. SWOT analysis (strengths, weaknesses, opportunities, and threats analysis) is a framework for identifying and analyzing the internal and external factors that can have an impact on the viability of a project, product, place or person. SWOT analysis guides to identify the positives and negatives inside an institution / organization / group (S-W) and outside of it, in the external environment (O-T). Developing a full awareness of a situation can help with both strategic planning and decision making. The technique is credited to Albert Humphrey of Stanford University, USA and was originally developed in the 1960s for business and industry, but it is equally useful in other arenas, and even personal growth. SWOT is not the only assessment technique you can use, but is one with a long track record of effectiveness. The strengths of this method are its simplicity and application to a variety of levels of operation. The technique that

enables a group / individual to move from everyday problems / traditional strategies to a fresh perspective.

### Resource Person Profile

Mrs.Krishnaveni completed her Ph.d from delhi university. She started her own learning centre under the banner of mahalearning. Today she is the managing director of mahalearning.

## **RESOURCE PERSON MR RAJA PROFILE**

Mr Raja is the founding attorney of the IP law firm Selvam and Selvam. He practices Intellectual Property law with special focus on protection and enforcement of trademarks and domain names. He has extensive experience in advising clients such as TripAdvisor LLC, ADP Inc, Citrix Online, Fromageries Bel, World Triathlon Corporation, Cartier, Linux Foundation on branding strategies, clearance searches, filing, prosecution of trademarks and internet domain name disputes; intellectual property transactions including IP audits, policies and procedures, due diligence, trademark acquisitions, licensing, assignments, settlement, consent and coexistence agreements.

He also enjoys his experience as a visiting faculty, Department of Journalism, Madras University where he teaches Copyright and Trademark law.

His clientele include both individuals and companies ranging from small start-ups to multi-national corporations in a wide variety of industries, including technology, consumer goods, pharmaceuticals and confectionery.

Selvam is a member of the International Trademark Association and served as Committee Member - Trade Dress Sub Committee during 2010 - 2012 and currently serves on the Academic Committee 2013 - 2015.

Prior to starting the law firm Selvam and Selvam, he was an associate with Lall and Sethi, an IP firm based in New Delhi where he had the opportunity to work with the Motion Picture Association of America (MPAA) on issues relating to copyright infringement of Hollywood movies and has successfully conducted enforcement actions against piracy of Hollywood blockbusters.

Mr. Rajais also passionate about technology and often spends his free time developing and improving various tech tools for effective management of his client's IP portfolio

### **About the programme:**

Intellectual Property Right plays a key role in gaining advantages position to promote economic growth of our nation. India enjoys a large asset of R&D personnel and infrastructural facilities. Scientists and policy makers need more information, orientaton and facilities for protecting the products of intellecutal prowess of Indian Scientists. Hence this workshop was organised to sentsitise about the IPR to the medical and paramedical faculty and students.

### **OBJECTIVE**

The main purpose of intellectual property law is to encourage the creation of a wide variety of intellectual goods. Intellectual property rights refers to the general term for the assignment of

property rights through patents, copyrights and trademarks. These property rights allow the holder to exercise a monopoly on the use of the item for a specified period

### OUTCOME:

It created a great impact on the entire audience. Students were taught on how IPR restricts copying others ideas and how this will help the development of new ideas for the betterment of the society. fACULTY learnt how IPR provides total control over a new innovation and its creator. They were also given a platform to discuss how small innovations influence societies at large and how they should indulge in innovating and patenting ideas that will be useful for all the classes of individuals in the society.

## **INTRODUCTION**

Patrician College Institution innovation council supports and disseminates teaching and learning good practice across the university and beyond, and our aim is to become a world-leading centre of pedagogic and academic innovation and excellence, with a focus on enhancing and disrupting the learning and teaching experience. We are looking forward to build a strong pathway for the students who excel in the field of innovation and entrepreneurship.

The Patrician Institution Innovation Council promotes academic innovation projects and provides information, advice, and guidance for this and other forms of pedagogical support. We explore, support and facilitate best practice in the transformation of assessment, learning and curriculum development. We encourage and facilitate enhancement, engagement, and transformational thinking and activities within the teaching and learning experience, supporting pedagogic innovation and providing leadership.

This Faculty development program on the topic Incubation Mechanistic & Funding Opportunities for Academic Innovators was initiated to bring more light to the knowledge of the faculty on the innovation and start up. The futuristic perspective of the college is to build a strong foundation for the new inventors in every field possible and this faculty development session was looked as a highly informative and need of the hour for the faculty.

## **OBJECTIVE**

To highlight on the pre incubation preparations

To focus on the application process

To give knowledge on the agreement execution and process monitoring in incubation

To provide knowledge on the online curated database of all start ups to robust market and competitor

## OVERVIEW

Dr. Ramjee Pallela started off by given an introduction about his organisation where he is currently working after which he will focused on the legal and Finance aspects and highlighted the importance of setting up a necessary legal and financial systems and processes and how to ensure that once are dispersed as per the specific agreements. He highlighted on how to put a strong internal control in place. And emphasize on ensuring that the reporting is submitted to the donors and relevant stakeholders before the deadline and last but not least to ensure all compliances have been ordered to within the guidelines of it are IT ROC and others.

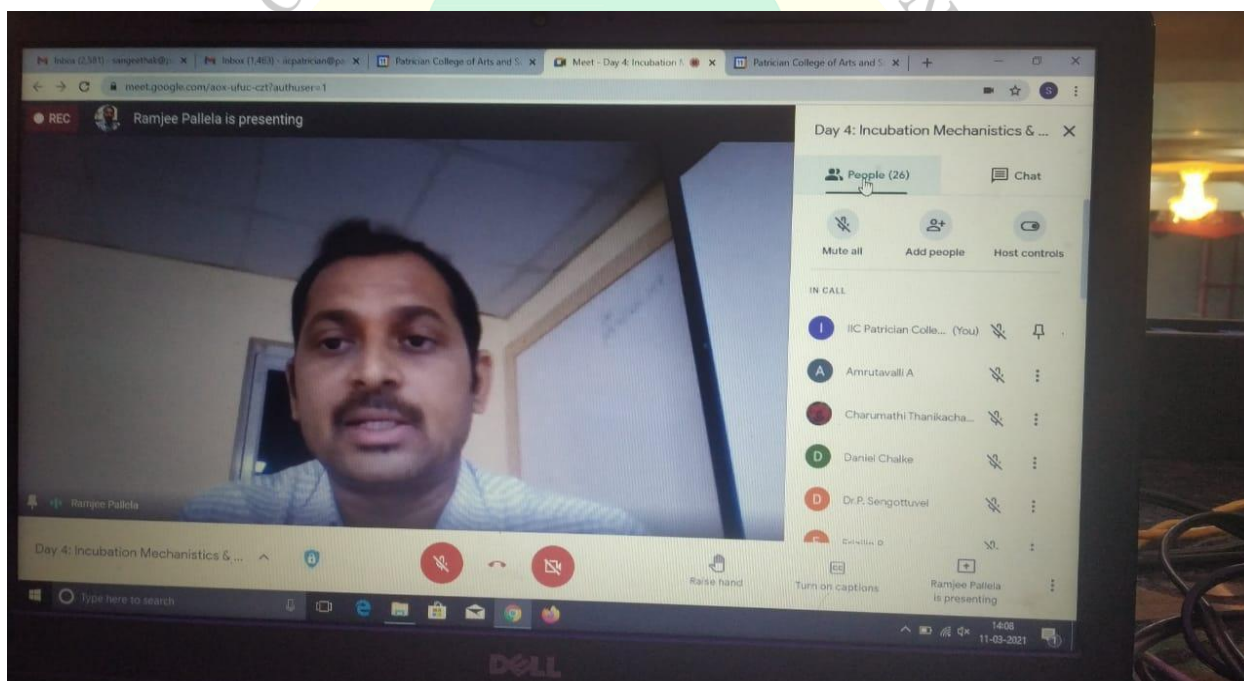

Dr Ramjee briefly explained about the incubation process flow chart with start from the incubation promotional activity followed by enquiry and visit to the facility followed by the application process the and selection of incubator by TAG with agreement execution and the process monitoring finally the graduation. He mentioned that we need to be very confidential and non disclosure of measures that we need to be ethical and follow the bio safety practices with due diligence of the companies and the founders in the incubation process.

Dr Ramjee Pallela spoke about digital platform to track progress of startup incubators at AIC CCMB and effective milestone tracking, mentors interaction, corporate connects and facilitates communication with all stakeholders. He focused on online curated database of all MNC and startup which gives a robot market and competitive analysis. He also said that it provides insights to funding Trends customised reports based on specific areas of interest focused on providing competition analysis and information about various funding round by investing institutions

Dr Ramjee gave a brief orientation on administration process and the support mechanism to emphasize on funding for incubator startups an innovators. He listed out various funding organisation and Research innovation based charities and Agencies for the faculty. He also gave specific organisations funding for a post doctorate funding entrepreneurship development centres and innovation incubation centres in higher education institution.

Finally he went through an overview of what are the infrastructure requirements needed to set up a innovation centre and what are the legal and IP regulatories, HR, financial management, cash flows, the scale-up strategies, in strategic negotiations and ended up with the entrepreneur in residence program and the centre for predictive human model system. Finally he went through a brief on the Hyderabad medtech consortium and listed out few incubators in Telangana state.

## OUTCOME

- The faculty were well equipped with the knowledge on how the funding aspects of the incubation works
- A clear knowledge on how to handle startups was oriented which was very informative
- The highlights on Institutional and research funding were useful for the faculty from Arts background.

- Overall it was very strategic and systematic layout for any startup given in a nutshell and hence was very useful and informative

### **FEED BACK**

As a part of our efforts to gather feedback we conferred with the faculty who attended online and offline they reported that the session was very informative and useful.

There were also few suggestions to conduct more educational and research funding FDPs in the future

The time given for the program was sufficient and the contents were delivered clearly and concisely. Overall it was a successful FDP program.

### Introduction of the Programme

The focus of the seminar was to promote the creation, protection & enforcement of the Intellectual Property Rights amongst various stakeholders. Those who have the creative minds and ability should feel assured that not only their efforts have been duly recognized but it is secured in a specified manner. It is also important to promote intellectual property licensing practices, particularly, with a view to foster creativity, innovation and the transfer and dissemination of technology to developing countries and least developed countries.

A Startup incubator is a collaborative program designed to help new startups succeed. Incubators help entrepreneurs solve some of the problems commonly associated with running a startup by providing workspace, seed funding, mentoring, and training. It aids entrepreneurs in solving discrepancies associated with running of startup. Globally, incubators have become a biome with an array of initiatives that motivate and back economic

To encourage seed-capital investment in startups. To serve as a platform for promotion of world-class Innovation Hubs, Grand Challenges, startup businesses and other self-employment activities, particularly in technology driven areas. To propel successful innovation through incubation and joint R&D efforts between academia and industry

### Objective of the Programme

It was organized with an aim to bring awareness about the importance of having Intellectual Property Rights (IPR) related to patent, trademark, industrial design, trade secrets, geographical indications and copyright. In these tough times, start-ups are one of the sectors facing the major heat. And if we especially talk about the early stage start-ups, they are impacted the most. Incubators and Accelerators have always played an important role in helping and building Indian start-up ecosystem and same kind of support is required from them during this COVID era.

“Intellectual property” are type of property that results from creation of the human mind, the intellect. Intellectual property management starts with the germ of an idea. IP by itself neither helps nor hinders development necessarily. It is how laws, policies and practices are designed and used in different countries that determine whether IP is effective for development purposes.

The sole purpose of a startup incubator is to help entrepreneurs grow their business.

### Outcome of the Programme

On the above backdrop, Patrician Institution’s Innovation Council (PIIC) in association with IQAC organized 5<sup>th</sup> Day FDP programme. 126 participants from Patrician college and 75 participants from various Institutions and industries attended this FDP.

The speaker shared his magnificent knowledge and experience in the Patents and Intellectual Property Rights where he guided about drafting the patents and what actually can be patented. This vast information regarding the field is essential in today's world where innovation led Start-Up's count every second. It is essential for the participants engaged in developing new concepts and products who should protect their ideas by patenting them or choosing suitable Intellectual Property Rights. The contents covered by him were the basics forms of IPR. He covered about copyrights, Trademarks and Patents by giving various real life examples. He also talked about various brands and gave knowledge about the salient features of IPR. He explained what can be patented and what cannot be patented as per rules. He talked about the terminology /jargons used in IPR

The speakers also explored the fascinating universe of science entrepreneurship. Science startups are booming and these highly attractive employers are making scientists want to change direction and move away from the classic academic career path. Yet, the world of growing, fast-paced, innovative companies poses its own challenges and hurdles. Get first-hand advice on how to succeed in these environments from recognised startup employees, founders and CEOs.

. The webinar was further enlightened by the interesting questions answer session in the last which gave true colors to the webinar and gave chance to young innovators to speak their doubts regarding innovation and its protection.

## Introduction

The phrase "Knowledge-based economy" describes the new economic environment in which the generation and management of knowledge play a predominant part in wealth creation, as compared with the traditional factors of production, namely land, labour and capital. Intellectual property (IP) is a method for legally protecting this knowledge or intellectual activity. The system of Intellectual Property (IP) rights creates a mechanism to resolve the "Appropriability" problem, by creating property rights over knowledge. At the SMEs level, IP has been a significant source of competitive advantage of business enterprises and a major driver of their competitive strategies.

## Objective:

Intellectual Property Rights are legal rights, which result from intellectual activity in industrial, scientific, literary & artistic fields. These rights are Safeguard creators and other producers of intellectual goods & services by granting them certain time-limited rights to control their use. Protected IP rights like other property can be a matter of trade, which can be owned, sold or bought. These are intangible and non exhausted consumption.

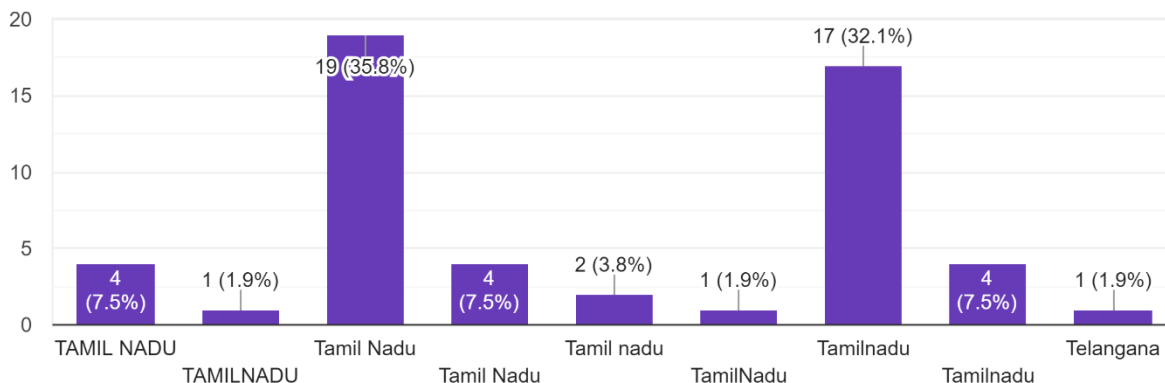

## Outcome:

Awareness of IPR benefits to the MSMEs is mainly on two fronts. Firstly, how they can protect their creations i.e. to protect their own intellectual property rights and secondly, how they can avoid violating intellectual property rights of others. Furthermore, this increased awareness will encourage MSMEs to make better use of IPR system and make it an integral part of their business strategy. The Ministry intends to help MSMEs to understand IPR from business perspective as well as exposes the IPR needs of the MSMEs to policy makers through awareness and capacity building programme.

## **P.G ORIENTATION PROGRAMME**

**DATE: 31.10.2020**

On 31<sup>st</sup> October 2020, the Inaugural sessions of PG classes and Orientation took place with much gusto. During the Pandemic, the students bravely rode the Pandemic storm and chose to place their trust in the multifarious benefits of a tertiary Post Graduate education. 2020 – 2021 saw the introduction of three more PG programs in both Shift I and Shift II. M.A. Human Resource Management, M.Sc. Applied Psychology, M.Sc. Mathematics were introduced.

To mark the new beginning and to inaugurate the new PG programs, Mr. JaiKrishna B, President, Group- HR, Amararaja Group, Telengana was invited. Being a versatile person, with a rich academic experience and an industrious career spanning from 1990, Mr. Jaikrishna was the ideal motivator to spearhead the event. The Online Event saw the participation of all the six Post Graduate Students, parents, faculty and Officials eagerly awaiting the inaugural session.

The Management and the Faculty were ready with warm hands to welcome them to foster them and steer them on the right path to aspire their ambitions and dreams while moulding these growing minds into promising citizens for the nation. The Vice Principal Dr. B Meena (Shift I) briefed on the academic excellence of the Chief Guest and his sure steps to success. During his inaugural speech and address to students the Postgraduate students, the Chief Guest ran through the phase of the pandemic and to look at its bright side – the opportunities it provides, and the necessities it brings. His words of cheer and congratulations enervated the spirit of the students and the parents.

A Video Presentation of the achievements of the PG departments over several years has indeed encapsulated the spirit of Patrician College. The Director and Secretary, Rev. Bro. Dr. S Arockiaraj gave his blessings and wishes to the students and thus exhorted on the quality of education at Patrician. He gently prodded the students to use every opportunity for growth. The Academic Director Dr. Fatima Vasanth congratulated the students and warmly welcomed them

into the Patrician Family. Her words of encouragement rang cheer and welcome among the students. In her felicitation, Principal Dr. Usha George spoke on the nature and scope of higher education and how students must stand up to its ideals. The Vice Principal (Shift II) Dr. Geetha Rufus introduced the Heads of all the Post Graduate Departments and highlighted the achievement of the Faculty and the Department.

The program concluded by expressing gratitude to all those involved in the program, the Student Affairs Committee which coordinated all the aspects of the events and wished all the students a very successful and fruitful college life.

## REPORT

Patrician Institution Innovation Council organized the “Industry 4.0 Digital Transformation Conference” on 8. The premise of this year's virtual conference was to focus on how COVID-19 has disrupted manufacturing operations and supply chains across the US and globally. This conference explored the role of digital transformation and how that impacted manufacturing during the early days of the pandemic, how manufacturers reacted, and what the future may hold for manufacturing and continued digitalization. These topics were underpinned by a key note talk from 3 M on the manufacturing of personal protective equipment (PPE) and how they have embraced the digital transformation in pharmaceutical development. There were two panel sessions that addressed questions about how digital transformation was accelerated during the onset of the pandemic and what the future will hold for ongoing digital transformation. Finally, a digital transformation roadmap discussion and short workshop were held to complete the conference. Around 55 participants were registered and presented papers.

## REPORT ON 19<sup>th</sup> AUG INAUGURATION OF UG

19<sup>th</sup> August 2020 was a day filled with dreams, aspirations, ambitions, hopes, anxiety, determination, eagerness, desire, confidence, happiness, and with mingled feelings in the hearts and minds of many young students who were taking their first major move into college life. From one environment and phase which was filled with warmth, protection, and always been guarded to safety to moving on into an environment and phase where you begin to take charge of being responsible for your actions, developing your skills and exhibiting your talents, exploring yourself in various fields, it is always a challenge to adapt with the change in phase, environment and times.

Despite the changes with the present times, Patrician College Of Arts and Science along with its huge family opened its arms wide to welcome these young aspiring minds to foster them, promising to love and nurture them, to make them feel at home and also steer them on the right path to aspire their ambitions and dreams while moulding these growing minds into promising citizens for the nation. This ambitious day began on the virtual platform with a beautiful prayer song – United we stand to seek, to strive and to find, a true meaning to comfort and tranquille the hearts of the sham rocks with a message that anything could be achieved when we stand untied and work together to seek, to strive and to find success. Followed by a prayer seeking God's guidance for a brand-new start. Dr. Geetha Rufus, the Vice-Principal (Shift-II) welcomed the gathering. The Vice Principal (Shift II) Dr. Geetha Rufus also gave a message to the students to work towards their objective and wished them the very best for the new academic year. The program was followed by an AV presentation of the 20 glorious years of the college, its humble start to its enormous rate of growth in sq feet, faculty, the number of students, the various courses offered, the ambiance of the college, the club activities of the college that have extended help during disastrous times, the accreditation of Grade 'A' by NAAC. The AV also highlighted the success stories of the Alumni of Patrician College who are invited as Chief Guests, Judges, Resource persons and benefactors to inspire, lead and share their experience stories of success with the students. The Vision and Mission of the college was emphasized to the virtual audience. The Director and Secretary Rev Bro. Dr. S. Arockiaraj, addressed the 1<sup>st</sup> year Undergraduate students and told them to look forward and not behind, to be focused and keep their dreams alive, to take up every opportunity to succeed, make use of the services offered by the college and the guidance given by the lectures to achieve their full potential and be a best version of oneself. Dr. Fatima Vasanth, Academic Director, conveyed her blessings and congratulated the new students for choosing Patrician College to pursue their dreams. The Academic Director also extended a warm welcome to the Shamrocks who have become apart of the Great Big Patrician Family. The Principal Dr. Usha George welcomed and conveyed her blessing to the 1<sup>st</sup> year UG Students and to be sure that they are in the right place and will have a holistic development. Mrs. B. Anandapriya, the Academic Affairs Coordinator and Associate Professor, Department of Computer Applications, walked the students through with the Academic Schedule for the Month of August 2020. The program concluded by expressing the gratitude to all those involve in the program and wishing all the students a very successful and fruitful college life.

**Philosophy**

- Positive reinforcement increases feelings of being OK
- All people have a basic lovable core and a desire for positive growth.
- All of the many facets of an individual have a positive value for them in some way.
- Everyone (with only few exceptions, such as the severely brain-damaged) has the capacity to think.
- All emotional difficulties are curable.

Report:

The quality of Higher Education depends on the quality of the teacher. Today teachers play various roles such as Tutors, Researcher, Mentor & Counsellor etc, This FDP provided knowledge and experience sharing by the experts in the areas viz., teaching, research, learning process, classroom Management etc to achieve excellence in their profession and provide better service to the student community.

### Outcome

There were 115 participants registered for the Five-day International Faculty Development Program from different colleges and from different parts of the country. This national initiative was able to disseminate teaching skills training, research knowledge to large numbers of faculty at modest cost. This programme helped the academicians in improving the academic performance of faculty with resultant enrichment of learners' knowledge and skills.

A large, faint watermark of the Patrician College of Arts and Science logo is visible in the background of the lower half of the page.

### SCREENSHOTS OF PARTICIPANTS & PHOTOGRAPH

### REPORT OF THE PROGRAMME

An international virtual webinar on taking HR practices forward in a post covid world was conducted on 26<sup>th</sup> June, 2020 at 11:30 am IST through Cisco WebEx platform. The resource person for the day was Mr. Zahir Mohammed – Founder and Chief Executive officer, AMK Technology, Malaysia. There were 339 students from various well-known colleges including ours namely, Loyola college, Women's Christian college, Indian Maritime University, The New College, Ethiraj College and many more universities attended and benefited from this International Webinar.

The Master of Ceremonies for the day was Ms. Irene Ancelm – Department Secretary BBA, Patrician College of Arts and Science. First we took a few moments of silent prayer to invoke God's blessings upon us. Soon after, Mrs. B. Sasikala, Assistant Professor, Department of Business Administration, welcomed the gathering. Mr. David Claremont – Former Department Secretary BBA, introduced the Chief guest for the day.

The resource person, Mr. Zahir Mohammed is the Founder and Chief Executive officer of AMK Technology group. His outstanding Leadership has elevated AMK as a leading software service company in Malaysia and the region. He ventured into IT industry in 2000 forming the AMK Group. AMK had a tremendous growth as a strategic solutions and outsourcing consultancy services with a global customer base that includes Fortune 500 companies, Small to mid-sized companies and Public Sectors. AMK group's technology and delivery expertise, is spread across

application development, ERP implementation, consulting and management services. Mr. Zahir Mohammed was born in Salem district, India, he hailed from a middle class family and he did his Mechanical Engineering from Salem, however he claims engineering to be his father's dream, hence he accomplished it. Mr. Zahir Mohammed's dream is what he is pursuing currently.

He shared experiences of his journey from doing Mechanical engineering and then entering into IT sector and how he started his career in IT, worked in a company for 8-9 months, did many crash courses like CAT and learnt Mainframes. He was the Country Head/Manager in a MNC, But then there was a constant change in company's vision and mission because the company went with stakeholder's directions. He got frustrated and ended up asking himself - "Why not I work for myself" and create an opportunity for the others? – Thus the emergence of AMK Technology happened.

AMK was started in 2000 and initially it had zero money but solely determination brought Mr. Zahir Mohammed to what he is now today. From a one-dollar company to a 100 crore company today. AMK's operations are done worldwide in countries like Singapore, Dubai, Saudi Arabia, and its partnership in the United States and Australia. Predominantly they run practices in SAP, ERP applications for utility companies such as the Electricity board, Water, Telecom, Large manufacturing companies, logistics, Fortune 500 companies. Another practice is that they develop HR related products like Payroll, personal development, leave management, and these are used by companies like Microsoft and Mercedes, Bangalore.

He insisted on this point – "Whatever you do, do it with passion". The main focus lies in the employee's interpersonal skills and the awareness about the current technology and the market to be scalable. He says the hirers are the hunters of an organization as they have to hunt for the right talent/person across the globe. HR people are an integral part – Front liners of an organization.

Coming towards the future employability skills in the post covid19 world, he says that the industries such as travel and tourism have been badly affected but it is only a temporary phase. We got some insights on Giga Community and it's prevailing role. Covid situation has nothing to do with fear factor for any of these work opportunities especially from HR perspective – says Mr.Zahir Mohammed.

Interactions -

Moving towards the Q&A Session, we had quite a lot of queries from the chat box regarding the post Covid19 world scenario and was very engaging. There was this question raised by Karishma.M who asked – "What additional qualification and talent is needed to become an HR in the post covid world? and there was this simple answer rendered by Mr.Zahir Mohammed that, nothing extra is needed except for being able to negotiate and articulate well with people and that the companies are looking for problem solvers irrespective of their degrees.

The vote of thanks was delivered by Dr.A.Raja, Assistant Professor, Department of business administration.

### FEED BACK- REPORT

Finally, a feedback link was sent to the students to give their opinions about the webinar. The form consisted of questions like -Was the resource person able to convey the session content effectively? Give short feedback about the webinar, were you able to clearly understand all the information that was presented in the webinar? etc. Students were supposed to rate the degree to which they agreed on a scale of 1-5. The form also had 'yes' or 'no' questions making it user-friendly.

The webinar received overall positive feedback, was extensive and helpful in the prevailing context – taking HR practices forward in a post Covid19 world.

Around 400 participants were truly benefited through this program and e- certificates were given to all those who attended the webinar till the end.

#### **Project Summary:**

The main objective of this project is to hide the data in texture image using Reversible Data hiding method. Here we are going to develop a simple, cost effective and fast algorithm for hiding the data in image with reduced mean square error and high peak signal to noise ratio. The developed algorithm can provide Various numbers of embedding capacities, Produce a visually plausible texture images, and Recover the source texture. This project utilizes the MATLAB software for implementation, image processing approach is used for hiding the data.

**PREPARE NOTES**

Preparing Short-Notes is the best way of practicing your EXAM in a short time and revise everything.

You can write down important things and related facts and points. Using underlining and highlighting headings will help you to make better notes.

Writing notes will also help you in remembering things.

**Important topics**

**Time complexity:** It is a way of representing the amount of time needed by a program to run to the completion.

**Space complexity:** It is the amount of memory space required by an algorithm, during a course of its execution. Space complexity is required in situations when limited memory is available and for the multi user system.

Each algorithm must have:

- Specification:** Description of the computational procedure.
- Pre-conditions:** The condition(s) on input.
- Body of the Algorithm:** A sequence of clear and unambiguous instructions.
- Post-conditions:** The condition(s) on output.

**General Tree**

**Forest 1**

**Forest 2**

**Forest 3**

#### OUTCOME OF THE PROGRAMME:

The Participants were able to understand the most important units in the subject such as Tips and tricks for Paper 2, Computer Networks and Data Communication, Data Structure and Algorithm, Database management System, Software Engineering, plan for study, Time management, etc.

### DEPARTMENT OF MANAGEMENT IN ASSOCIATION WITH IQAC National Webinar on 'Supply Chain Management' – The Paradigm Shift Date: 05.06.2020

*“Supply chains are in every organization. Even a Corner store has a supply chain. They just might not know it yet”. – By Nadia Kassam MBA.*

Rationale of the program:-

A supply chain is the network of businesses and people that work together to move raw materials into finished goods and eventually to the end-user. The supply chain is directly or indirectly

responsible for fulfilling organizational needs. So it's important for students to have some knowledge in this field of work.

Objective of the program:

- To impart knowledge on Supply chain management to participants
- To make participants understand the pivotal role that supply chain management is going to play in the way businesses work in the future

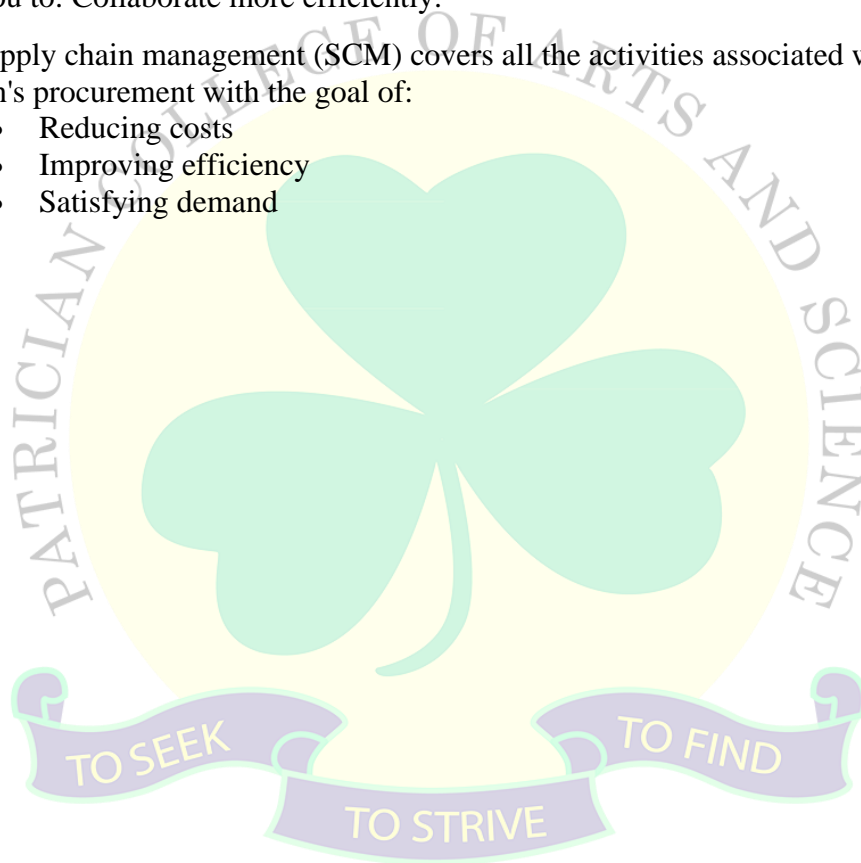

About the topic:-

Learning about 'Supply Chain Management' empowers you to keep the wheels turning smoothly -- both in everyday situations and in times of crisis. Whatever your relationship to the supply chain, gaining a better understanding of the flow of production and distribution will empower you to: Collaborate more efficiently.

The term supply chain management (SCM) covers all the activities associated with managing an organization's procurement with the goal of:

- Reducing costs
- Improving efficiency
- Satisfying demand

Report of the event:-

A national virtual webinar on ‘Supply Chain Management’ was conducted on 5<sup>th</sup> June,2020 at 4pm through the google meet platform. The resource person was Mr. John Prakash – Director of the Business School of Logistics and Shipping. Eighty-five students from different colleges including ours namely, Srimathi Devkunvar Nanalal Bhatt Vaishnav college for women, S.A Engineering College, Research Scholar Presidency College, Vel Tech High Tech Engineering

college, Kongu Engineering College and Alagappa University, attended and benefited from this national webinar. The master of ceremonies was David Claremont- Department Secretary of BBA, Patrician College of arts and science. We started the day with a prayer song by Lavanya Jayamohan from the BBA department of Patrician College.

Shortly after, Dr A.R Raja, Assistant Professor, Department of BBA, introduced the Chief Guest for the evening. The resource person, Mr. John Prakash, has 25 years of experience in the field of International Supply Chain. He also has end-to-end knowledge about trade forwarding, domestic logistics, supply creation and distribution. He is a good communicator with vast selling experience in the shipping line industry. He has also travelled frequently to the United States of America, The Middle East and South-east Asian countries. Furthermore, he has handled operations for native shipping lines and consultancies. He is currently a lecturer, teacher, trainer, mentor and a role model to many youngsters. He founded BSLS (Business School of Logistics and Shipping) in 2016. He explained to us the origin or the root of supply chain management. Supply chain was initially used as military term in the early 1900's to describe the process of getting food, weapons, ammunition, etc. He later explained the modes of transport- railways, airways, waterways and roadways. Logistics is a vital component of supply chain management. Globally, logistics is a \$4 trillion business segment. Mr. John Prakash proceeded to explain the importance of SCM. He said, *"Supply chain management runs the world. It is the story of everything. Opportunities lie at boundaries. Cost is a consequence but never unimportant "*. He concluded by giving a brief explanation about the future of supply chain management. He mentioned that the future will be linked to technological developments. Artificial intelligence will be the biggest enabler assisting Optimization and Asset utilization. He concluded the webinar by stating that a career in Supply Chain Management has a bright future. At the end of the session The Vote of Thanks was presented by Mrs.B.Sasikala Assistant Professor, Department of Business Administration.

Interactions:-

At the end of the webinar, students and teachers were given time to raise questions regarding SCM. One of the students asked *"The labourers working for logistics are supposed to work from home during quarantine. Yet, goods are handed to costumers. How?"*. Mr. John Prakash replied stating that staff who work for logistics should also be considered heroes along with doctors. They take a risk by delivering goods to customers as per their needs and save the economy in this process. Another student raised a question regarding how the situation of supply chain would be after the pandemic ends. Mr. John Prakash was positive and said that once the pandemic is over, the curve will go up because manufacturing will increase and logistics and manufacturing go hand in hand.
