This seminar will try to understand the different aspects and the needs of refugees. This seminar will try to understand the different aspects and the needs of refugees. When people forced to flee should be treated with dignity. Anyone can seek protection, regardless of who they are or what they believe. It is non-negotiable: Seeking safety is a human right. Wherever they come from, people forced to flee should be welcomed. Refugees come from all over the globe. To get out of harm's way, they might take a plane, a boat, or travel on foot. What remains universal is the right to seek safety. Whenever people are forced to flee, they have a right to be protected. Whatever the threat – war, violence, persecution – everyone deserves protection. Everyone has a right to be safe.
